oasis

Add Value to Your Home

Add value to your home with the exciting addition of a concrete pool from Australian Outdoor Living. Our concrete pools are an investment like no other that you and your family will enjoy for years to come.

Create Your Own Vision

Families, homes and outdoor spaces come in all shapes and sizes, and so too do our concrete pools. Whatever your unique vision, Australian Outdoor Living can bring your dream to life, with an entirely customisable concrete pool design.

We are SPASA Members

Our pools are a vision of inspiration with many of our installs awarded for excellence in design and construction. We are dedicated to creating pools of the highest standard, and for this reason we are proud members of the national Swimming Pool and Spa Association (SPASA).

No Fuss Council Approval

We submit all designs, drawings and permit applications on your behalf. This is undertaken immediately after you have approved your design, ensuring minimal delay.

Qualified Tradespeople

All Australian Outdoor Living installers are fully qualified tradespeople who adhere to strict Australian standards. You'll be without worry knowing your project is in safe hands. Furthermore, all work is carefully overseen by a dedicated Site Supervisor.

Handover Kit Provided

Once your pool is completed, we provide you with an extensive handover kit that includes an owner's handbook, telescopic pole, vacuum head, hose, skimmer scoop, leaf rake, water test kit, training on equipment operation, a final pool clean, water test and balance.

Pool Tiling and Coping

Whether you are aiming to create a natural pool surrounding or prefer a modern style with clean edges, Australian Outdoor Living's large range of pool tiles and pavers are sure to assist you to create your personalised outdoor vision.

Elegant Pool Lighting

Create backyard ambiance with LED pool lighting and enhance your outdoor pool area. With many colour and size options, you can completely transform your environment to suit your mood, creating a paradise that extends far beyond your pool.

Stunning Pool Features

Water features are the perfect way to add further interest and ambience to your pool and outdoor space. If you're interested in making a true statement, why not create resort-like sophistication with the spectacular addition of an infinity edge or water feature.

Filtration and Heating

Australian Outdoor Living can offer you several choices in filtration and heating systems. We will assess both your requirements and preferences, to come up with a solution that will suit your particular needs perfectly.

Mineral Water System

MagnaPool® is a wonderful alternative to salt or chlorinated water options for those seeking a pool that is rejuvenating with each and every swim. The minerals have properties that are gentle on the skin, hair and eyes - perfect for those with allergies or irritations.

Self Cleaning Pools

In-floor cleaning and circulation systems work automatically through pop up blowers located on the pool floor. These blowers push the debris into one spot which is then automatically sucked up into the filter. Perfect for reducing your cleaning and maintenance time!

QUALITY CONCRETE POOLS

Australian Outdoor Living concrete pools are entirely customisable to suit your unique vision and needs. Not only do we give you the freedom to pick and choose as you please, you'll have complete peace of mind knowing that you will be taken care of with a renowned, quality builder.

The Installation Process

① Seek Council Approval

Your Project Manager will submit appropriate paperwork and application forms to obtain council approval.

② Excavate and Level Base

The site is carefully excavated, with the base prepared and levelled.

③ Install Steeling, Shell Plumbing and Hardware

Structural steel fixings and internal shell plumbing are installed along with all hardware. The site is then inspected.

④ Spray Concrete

Concrete is sprayed and rendered to create the desired pool design.

⑤ Plumbing and Equipment

All remaining plumbing is run to the final pool equipment location and installed.

⑥ Tiling, Coping, and Paving

Your dream pool really starts to become a reality during this step as tiles, coping and paving are laid.

⑦ Fill, Filtration and Handover

After safety fencing is installed your pool is filled, chemically treated, balanced and ready to go!
