benefits

The Insulation Solution

Our shutters boast the thickest aluminium slats on the market. This provides your home with the best insulation for maintaining comfortable temperatures, light control and up to 50% noise reduction.

Blinded by the Light?

Roller shutters drastically block out light - perfect for shift workers, young sleeping children or a home theatre. You're in control when you've got Australian Outdoor Living roller shutters.

Australian Made

Rest assured knowing Australian Outdoor Living's roller shutters are made to order in Australia, using only the highest quality materials to suit Australian conditions.

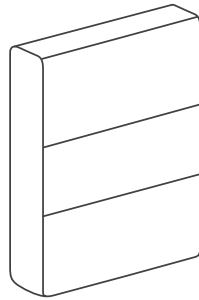

No Rattling From Wind

Our roller shutters are specifically designed with wind in mind and are thoroughly tested. Rattling will never be an issue with Australian Outdoor Living roller shutters.

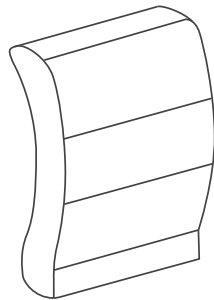

OUR QUALITY ROLLER SHUTTERS

Australian Outdoor Living roller shutters provide countless benefits including security, insulation, light control and noise reduction. Along with the many practical benefits of roller shutters, they can also significantly add to the overall look and complement the character of your property.

Flat Slat Roller Shutter

The Australian Outdoor Living flat slat roller shutter has a thicker appearance when compared to the curved slat option. Neither is superior to the other, they are simply different in appearance.

Curved Slat Roller Shutter

Australian Outdoor Living offers a curved slat roller shutter with a rounded appearance when viewed from the side. The curved slat has a slightly thinner look.

Manual Options

Strap Winch Operation

The strap winder is your standard manual operation. This is the most common manual operation choice on double brick homes.

Strap Coiler Operation

Our pulley system is perfect for awkward areas - for example, small bathrooms. It can only be used on smaller window areas.

Electric Options

Hard Wired Switch

Electric cables are installed inside of the wall. In most cases these are not visible, with the exception of some houses, where conduit is required. An up and down switch plate is mounted on the wall for easy operation.

Electric with a Remote

The remote control option conveniently allows you to roll your shutter up or down from anywhere in the room without having to leave your seat.

CUSTOM ROLLER SHUTTERS

Australian Outdoor Living Roller Shutters are completely customisable.

ROLLER SHUTTERS FOR YOUR BUSINESS

Deter undesirable, shady characters from lurking around your premises. Our roller shutters will provide your business with exceptional privacy, confidence and safety.

Thief Deterrent

Roller shutters provide an extra barrier over glass windows. Protect your assets while ensuring your business is not seen as an easy target for would-be thieves.

Custom Built

Your roller shutters will be custom built by hand to meet your every expectation. We have exclusive access to our manufacturing plant, meaning that nothing is impossible.

CSIRO Fire Rated

Our shutters are the preferred option for covering windows in bush-fire prone areas. Adhering to the latest regulations, our shutters can protect your business when threatened by an ember attack.

Strong Roller Shutters

At Australian Outdoor Living our roller shutters are strong and difficult to break through. They will provide your business with extra security - and you with peace of mind.
