THE LAP POOL RANGE

The Lap pool range has been designed for formal settings and narrow applications to work hand in hand with today's modern style.

The Lap pool is perfect for positioning in narrow areas on your block. With clever use of lighting and even the addition of a water feature, the Lap pool creates a stunning backdrop to your home. It also provides superb opportunities for exercising or just simply relaxing. A careful design includes large width entry and exit steps positioned in the middle of the pool, with a formal seating area recessed away from the actual swimming path. Mix work with play!
