OUTDOOR LIVING**

## YOUR GUIDE TO **OUTDOOR BLINDS**

Enjoying the fresh air from your very own yard is something many Australians love. Unfortunately, the unpredictable climate makes it difficult to enjoy the outdoors all year round. Cold nights, harsh winds, lack of privacy, intense heat and strong UV rays are just some of the reasons we don't get out and enjoy our gardens as often as we'd like.

Outdoor blinds create the ideal enclosed space to sit back and relax, acting as a barrier against the elements and even those pesky bugs. Australian Outdoor Living offer custom made blinds to suit any need, including clear, tinted and shade blinds, all manufactured in Australia to the highest standard.

Sit back and relax knowing you have control of your unique space with Australian Outdoor Living's quality outdoor blinds. Not only do our blinds have the ability to enhance your lifestyle, they can add value to your home by increasing your livable space.

With a large range of colours, designs and styles to choose from, we have the perfect solution for you and your home.

## FABRIC OPTIONS BELLA VISTA

Enjoy your outdoor space without feeling as though you're being watched. Our Bella Vista and Bella Opaque fabric range offers a varied level of privacy.

The Bella Vista shade blind range is a semi-opaque solution, designed to restrict nosy neighbours from seeing in whilst still allowing you to see out. 'Bella vista' translates from Italian to 'beautiful view' and these blinds certainly allow you to enjoy exactly that.

The Bella Vista range also provides great protection from the elements - including UV rays and rain.

### Great Weather Protection

Don't let Mother Nature stop you from enjoying the outdoors! Protect your outdoor space from the harsh Australian elements with our quality blinds.

### Entertain with Privacy

The 'comfort of your own home' should extend to your outdoor space. Our Bella Vista shade blinds offer varied levels of privacy so you're not restricted to life 'behind closed doors'.

### No Exposed Zips, or Stitching

Australian Outdoor Living shade blinds have no pulleys, straps or other unsightly features that could spoil your view.

## FABRIC OPTIONS BELLA CRYSTAL & BELLA BRONZE

There is no need to make any scarifies when installing our Bella Crystal or Bella Bronze blinds. The Bella Crystal (clear) and Bella Bronze (tinted) provide fantastic weather protection without blocking the sunlight or your beautiful view.

Made from industry leading exclusive Marine Grade 'extruded' PVC, the Bella Crystal and Bella Bronze blinds create an almost invisible protective barrier between you and the outside world, while remaining strong, durable and water resistant.

Our blinds help to keep you cosy and comfortable so you can spend more time outdoors.

### Great Weather Protection

Being outdoors doesn't have to be limited to summertime. With the weather protection that outdoor blinds provide, even in wind and rain, being outdoors can still be comfortable and enjoyable.

### Custom Creation

With many available options, each blind we make is completely custom and made to measure. Even our customisable edging is available in nine different colours! This ensures that our blinds fit in with the existing colour scheme and surroundings of each client's backyard space.

### No Exposed Zips, or Stitching

We choose to weld our blinds. This adds to the integrity of the blind, ensuring nothing but a strong and durable blind. This has the added benefit of no unsightly zips, straps, ropes, pulleys or stitching to detract from the finished product.

# OUTDOOR BLINDS OPERATION

*Installing Australian Outdoor Living outdoor blinds means you can get outdoors and enjoy the fresh air in comfort and style. Choose from our popular Classic Series or, better yet, you might opt for our deluxe Motion Series. Both are absolutely exclusive to Australian Outdoor Living and custom made in Australia, to fit your space, taste and budget.*

**Note:** Bella Crystal & Bella Bronze options are exclusive to the Classic Series.

## Classic Series

Our Classic Series is our founding product. Since inception, it has been a vastly popular solution all thanks to its classic design and ease of use. The Classic Series is a simple, manually operated system. This allows control of the tension of the blind so that it remains crisp and neat. Versatile in its application and available in the entire Bella fabric range, the Classic Series won't fail to impress.

## Motion Series

The Motion Series brings a touch of sophistication to the Bella Vista and Opaque offering. Motion is a patented spring-loaded tension system, internationally renowned, and hand-picked by Australian Outdoor Living to enhance our existing quality outdoor blinds offering. In Australia, this system is exclusive to Australian Outdoor Living. At the touch of a button your entertaining area will be completely transformed, leaving you visitors in awe.

### Motorised Guide Track System

The Motorised Guide Track System is the premium option for those wanting all the benefits of the Motion Series at the touch of a button. Our Motorised Guide Track System is the epitome of environmental comfort control and convenience.

### Manual Guide Track System

The Manual Guide Track System provides for the benefit of the Motion Design, without the electric component. This variation allows for a wider blind span, higher wind rating and installations on stand-alone structures without a power connection.
