THINKING ABOUT | DECKING

Australians are known for their great love of the outdoors – for many, their gardens and backyards are an invaluable part of their day-to-day living space.

Timber decking is the perfect solution to your outdoor living needs - whether it be to create a stylish entertaining area or simply to help keep the outdoor part of your home easy to keep clean and tidy.

Using timber to effectively lay an outdoor floor leads to an extremely attractive finish with a hardwearing surface that requires low levels of maintenance.

At Australian Outdoor Living, we are the market leader in premium outdoor solutions - let us help you create the outdoor living space of your dreams with our quality timber decking.

THINGS TO CONSIDER | DECKING

At Australian Outdoor Living, we offer a fully personalised service throughout the entire process. Furthermore, we guarantee your peace of mind by having a fixed price building agreement – that way you can be sure there'll be no surprises!

Rest easy; safe in the knowledge that your timber decking will be carried out to the highest possible standard.

Australian Outdoor Living offers a wide range of timber decking designs and all our measurements and quotations are free and made on a non-obligation basis.

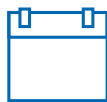

Decking can be used as a stand-alone feature or as part of a wider effect using patios, pergolas and verandahs. Not to mention, timber decking designs can also offer a beautiful surround for swimming pool.

All hardwoods from Australian Outdoor Living are carefully selected from manageable sources, resulting in a beautiful and environmentally friendly product.

The Beauty of Timber

There's nothing quite like the beauty and warmth of timber, outdoors. The versatility of timber allows it to perfectly complement modern or traditional style homes.

Great Guarantees

All our timber decking installations come with a 5 year structural guarantee, 15 years for the paint job and 25 years for the timber itself. All of our timber frames are also treated with long life preservatives to resist weathering and attack from white ants.

Fully Qualified Trades People

All of our craftsmen and women are fully licensed and qualified and as a company we have more than 15 years of expertise. We believe there is absolutely no compromise for quality, hence why we ensure our work is of the highest possible craftsmanship and construction standards
