benefits

Superior Insulation Solution

Boasting the thickest aluminium slats on the market, our Roller Shutters provide your home with the ultimate temperature control. Each slat is filled with a unique premium polyurethane insulation, reducing heat and cold transfer by up to 90%.

Light and Noise Control

Control the light in your home at any time of the day; Roller Shutters are the ultimate solution for shift workers, newborns or daylight savings. Enjoy up to 50% noise reduction, so you can create the perfect peaceful environment in your home.

Custom Designed

Created to suit your home, our Roller Shutters come in a wide range of colours to perfectly complement the exterior of your house. Featuring a sleek finish and with a variety of design options to choose from, pick the perfect combination for you.

FOR YOUR HOME OR BUSINESS

Deter undesirable, shady characters from lurking around your premises. Our roller shutters will provide your business with exceptional privacy, confidence and safety.

Peace of Mind

Increase the security of your home with our durable shutters, which act as a theft deterrent and help to prevent access to your property.

Australian Made

Our entire range of Roller Shutter are made in Australia using the highest quality materials to suit Australian conditions. Our Roller Shutter are coated in baked enamel, helping to prevent cracking and fading in the hot Australian sun for years to come.

CSIRO Fire Rated

Our Roller Shutters provide significant protection for your home when exposed to heat or an ember attack.

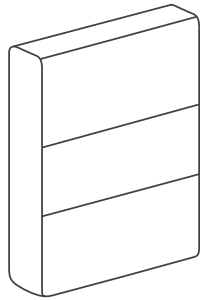

Roller Shutters Made To Last

Boasting the strength and durability to help protect your home and stand the test of time, our Roller Shutters feature a generous warranty for your peace of mind.

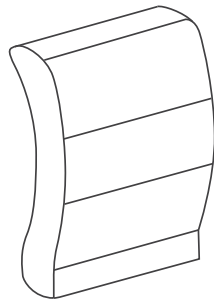

QUALITY ROLLER SHUTTERS

Enjoy light, noise and temperature control with the addition of Roller Shutters to your home. Featuring both manual and motorised options, there's an operation method to suit any property.

Flat Slat Roller Shutter

The Australian Outdoor Living flat slat roller shutter has a thicker appearance when compared to the curved slat option. Neither is superior to the other, they are simply different in appearance.

Curved Slat Roller Shutter

Australian Outdoor Living offers a curved slat roller shutter with a rounded appearance when viewed from the side. The curved slat has a slightly thinner look.

Manual Options

Strap Winch

The strap winch is a standard manual operation. This is the most common manual operation choice on double brick homes, as it avoids invasive drilling and does not require electricity.

Strap Coiler

The strap coiler pulley system is perfect for awkward areas, such as small bathrooms as it can only be used on smaller window areas.

Electric Options

Hard Wired Switch

Electric cables are installed inside of the wall to a switch, much like a light switch, making it a subtle inclusion to your home.

Electric with a Remote

The remote control option conveniently allows you to roll your shutter up or down from anywhere in the room without having to leave your seat.

CUSTOM ROLLER SHUTTERS

Australian Outdoor Living Roller Shutters are completely customisable.
