

What you need to know about Decking

THE  
**BUYERS  
GUIDE**  
—  
to **DECKING**

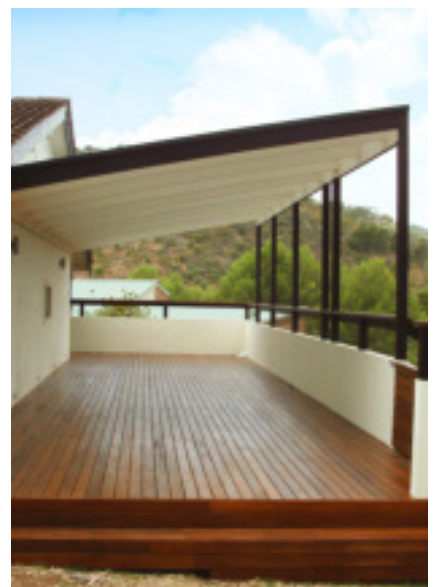

## YOUR GUIDE TO **DECKING**

Australians are known for their love of the great outdoors. For many homeowners, the backyard is where most of their best memories are made.

Make the most of your outdoor space and create a more versatile, functional, and beautiful space to enjoy with family and friends.

Unlike natural grass, timber decking won't cost a fortune in upkeep, doesn't need watering or regular maintenance and won't get too hot in summer. Decking can lend an organic feel to an urban environment, whilst still remaining sleek and contemporary.

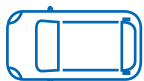

Australian Outdoor Living is the market leader in premium outdoor solutions. Let our experienced team help you create the perfect outdoor living space..

## THINGS TO CONSIDER **TIMBER**

Timber decking is a very affordable solution that can significantly add value to both your property and lifestyle. Whilst decking is a gorgeous stand-alone feature, it can also complement a pergola/verandah structure beautifully. Decking is also the perfect solution for high traffic areas or as an accompaniment to the surroundings of a swimming pool.

Australian Outdoor Living's timber is carefully selected from manageable sources, resulting in an aesthetic and environmentally friendly product. Furthermore, we guarantee your peace of mind with our fixed price building agreement – that way you can be sure there'll be no surprises!

### The Beauty of Timber

There's nothing quite like the beauty and warmth of timber. The versatility of timber allows for a modern, contemporary or traditional finish to suit any style of home.

### Great Guarantees

All our timber decking installations come with a 5-year structural guarantee, 15-year paint guarantee and 15-year timber guarantee.

### Fully Qualified Tradespeople

We take pride in our work and believe there is absolutely no compromise for quality. By using fully qualified tradespeople ensure our work is of the highest possible craftsmanship and construction standards.
